About the Institute

Started in August 2006 with the initial intake of 240 students in the branches of Electronics & Communication, Computer Engineering, Mechanical Engineering and Electrical Engineering, the institute is today throbbing with around 2150 students in two shifts (with 420 intake in the morning shift and 300 in the noon shift). However, the quantity has not taken over the quality. Our institute bagged the ISTE (Indian Society for Technical Education) award of Best ISTE Student Chapter in October 2008 among all the polytechnic Student Chapters of the state. In addition to this, the institute also stood first among all the self-financed polytechnics in Gujarat in the First Semester result declared by the Gujarat Technological University, Ahmadabad (February 2009).

About the Department

The computer engineering department is always dynamic with theoretical as well as sound practical approach towards software, hardware and other "soft" engineering problems. The department is well equipped with latest laboratory facilities with latest configured computers & required accessories, networking as well as broad-band internet connectivity. The department comprises of young, dynamic and devoted faculties who play vital role in overall development and progress of the students.

Program Objectives

In current era, many companies are migrating their existing web applications to PHP, My SQL, to take the advantage of the robust features of advance PHP. This training is designed to equip participants with in-depth understanding of PHP, My SQL, architecture from the perspective of industries.

1. Form Design with HTML elements.
2. Use of PHP variable, & functions, & its Validation.
3. Bind PHP with JavaScript.
4. PHP with Ajax technology.
5. Create & Upload Image with GD Library.
6. Use of cms with PHP. (Joomla, Drupal)
7. JQuery plugin.
8. Mysql database with PHP.
